

Save Green. Practice Green.

S.T.E.P.S. to Achieve Success with MedClean

- Allow our company, or a third party Waste Consulting Firm to perform a full waste stream analysis** - identify the waste streams, the volume, frequency of pick-up, and actual spend.
- Preliminary Proposal** - upon receipt of the waste stream analysis, we provide a preliminary proposal of how we can address your waste streams and the estimated amount of expense reduction.
- On Site Survey Tool** - MedClean Field Reps will visit facility or facilities for proposed MedClean Systems and conduct a Site Analysis for accurate system configurations.
- Final Proposal** - We have completed a Full Waste Stream Analysis, provided a Preliminary Proposal, conducted an On Site Survey, and can now provide a Final Proposal, Final System Configuration, and an Accurate Percentage of Annual Savings.
- Implementation**
SAVE GREEN. PRACTICE GREEN.
